## OUR EXPERT SPEAKER

**Manuela Strahlhofer-Augsten** studied molecular biology and works as an academical referent at the Biobank Graz. As part of the quality management team, she is responsible to maintain the infrastructure of the Biobank Graz in view of the existing quality management system.

## WHAT'S IN IT FOR ME?

You will hear about:

- Semi/fully automated systems existing at the Biobank Graz.
- Necessary requirements for automation.
- Pros and Cons of such systems.

## AGENDA

During this webinar, we would like to give you an in-depth look of the existing (semi)automated systems of the Biobank Graz. Starting with the sample handling up to sample storage.
