

	O-FIS Qualitätsmanagementsystem Formblatt Collection and Cohort Profile	CL312 Seite 1 von 2
-----------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------	------------------------

1. General Information

Cohort ID	5001_11
Title (Study Name)	LBI LVR Pulmonary Vascular Collection
Principal investigator	PD Dr. Grazyna Kwapiszewska
Contact information	pm-biobank@medunigraz.at
Funding agency	Ludwig Boltzmann Gesellschaft / MUG / Bayer for LBI LVR

2. Description

In cooperation with the Ludwig Boltzmann Institute for Lung Vascular Research (LBI-LVR), blood samples, lung tissues from transplanted patients as well as primary cell lines (fibroblasts and smooth muscle cells) have been collected from patients with pulmonary hypertension (PH) or at risk for PH and stored at the biobank.

3. Details

ICD 10/O codes / Healthy	I27.0	
Key words	pulmonary cells, blood, tissue, PH	
Collection / Cohort size 12/2018	Blood & derivatives: 37.836 aliquots - 1113 patients Other samples collected from lung (Vein, PA, fibroblasts, Smooth muscle cells): 13.357 samples	
Informed Consent (IC)	<input checked="" type="checkbox"/> Broad Biobank IC <input type="checkbox"/> Specific Study IC	
Status	<input checked="" type="checkbox"/> In progress / compl. date: open <input type="checkbox"/> Completed	
Inclusion criteria	Age distribution	18-99
	Sex distribution (f:m)	~ 50:50
	Others	Patients with PH or at risk for PH
Access type	<input checked="" type="checkbox"/> Cooperation only <input type="checkbox"/> Cooperation preferred	
Earliest access	As of now	
Quality-standards	<input type="checkbox"/> CEN/TS <input checked="" type="checkbox"/> ISO 9001:2015 (SOPs)	
Associated publications / references	CD133+ cells in pulmonary arterial hypertension.
